

**FD430 | FD431 Fibre Detectors**

**FD430: Fibre detector assembly, single InGaAs (800-1700nm) detector with spring-lock fibre clamp**

**FD431: Fibre detector assembly, single Si (300-1100nm) detector with spring-lock fibre clamp**

**FL410  
Fibre Launch**

**Spring-lock fibre clamp based launch, recommended for direct to device measurements.**

**Slit mounted launch optics with x20 microscope objective with NA of 0.4.**
