

FD430 | FD431 Fibre Detectors

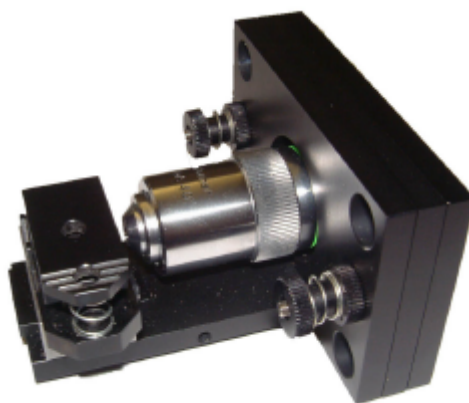

FD430: Fibre detector assembly, single InGaAs (800-1700nm) detector with spring-lock fibre clamp

FD431: Fibre detector assembly, single Si (300-1100nm) detector with spring-lock fibre clamp

**FL410
Fibre Launch**

Spring-lock fibre clamp based launch, recommended for direct to device measurements.

Slit mounted launch optics with x20 microscope objective with NA of 0.4.
